SOFTWARE DEVELOPMENT PROJECTS

DigitalCrafts Hackathon at City of Refuge | GitHub   *September 2023*
Express.js | Node.js | HTML | Javascript | CSS PostgreSQL | ElephantSQL | Swagger | Vercel |Jira
- Collaborated with a back-end development team to complete an 8 hour Sprint. Developed a mentor/mentee networking application to foster relationships and provide guidance for students at City of Refuge.
- Volunteered as an active back-end developer to establish relational tables within databases.

StockSurfer | GitHub   *October 2023*
React | Plotly.js | HTML | Javascript | CSS | Axios | Alpha Vantage API | Stripe | Vercel
- Developed a web application to track detailed information for over 2400 stocks on the NYSE. Includes a Stripe payment method to subscribe to a pro version of the app that can track historical data on these securities, toggle between charting software, add stocks to a watchlist and search functionality.
- Connected this project to financial markets to demonstrate expertise in utilizing API's and to challenge oneself in learning new technologies not learned during class.

SnuggleReads Book Subscription | GitHub   *August 2023*
Express.js | Node.js | HTML | Javascript | CSS | EJS | PostgreSQL | ElephantSQL | API | Swagger | Render | Jira
- Created a book subscription website that allows users to register accounts, log-in, update and delete their information. Enables users to add books to their favorites list.
- Managed the project as a project manager to ensure proper workflow between teammates while also being the lead back-end developer for the registered user database. Maintained security measures for user logins including sensitive user information such as passwords.

Movies.KP | GitHub   *September 2023*
React | HTML | Javascript | CSS | OMDB API | Vercel
- Developed a web application that allows users to search and display information for over 280,000 movies, fetching data from an official API.
- Enhanced user experience by creating an attractive UI for a simple movie database.

WORK EXPERIENCE

Sweet Cafe | *Restaurant Delivery Specialist*   **Morrow, GA** | *July 2021 - June 2023*
- Managed orders and payments, optimized delivery routes to ensure prompt and accurate food delivery, provided and maintained exceptional customer service.

Olympia Pizza | *Cashier*   **Stockbridge,GA** | *January 2019 - January 2020*
- Operated and maintained cash registers and cash records for over 100 orders a day. Accurately organized customer order history.
